

ESI Mapping - Stage I & II Incorporating ESI Mapping & Neuroscience August 8 – Stage I and October 31 and November 1 – Stage II

Learn a fast, easy way to quickly motivate behaviour change ...

If you are a Leader, Coach, Personal Trainer, Psychologist, Counsellor, Psychotherapist, Hypnotherapist, OTC, or work one on one with clients or teams, this is an invaluable tool to add to your kit. Teachers, social workers, and care givers also rave about this mapping tool. Mark your diary **NOW** and register your interest **TODAY** by emailing aucklandhypnotherapists@gmail.com - **BOOK NOW PAY LATER**

ESI Stage I – Foundation course Saturday August 8, 9am – 4.30pm

Based on neuroscience and easily learnt in just one day. ESI - Executive State Identification - teaches you a mapping tool that maps the states of one's behaviour. With this map you can help move your clients or team members forward quickly in all areas of their lives.

Change is remarkably fast!

ESI Stage II – Advanced Skills Neuropsychotherapy training – Saturday & Sunday 31 October and 1 November – 9am – 4.30pm

ESI Stage II is best described as mapping the pathways of the brain in conjunction with neuroscience for a greater understanding of human behavior. The theory behind ESI is cutting-edge, a combination of neuroscience and psychodynamics. By the end of the three days you will be equipped to use the ESI mapping tool across a range of situations from corporate to therapeutic interventions.

You will be amazed by the results and the insights through combining Stage I & II. You will learn how to incorporate neuroscience and psychotherapy into your daily practices.
